

CERTIFIED GERIATRIC CARE MANAGEMENT & PROFESSIONAL GUARDIAN SERVICES

... TLCCS offers professional guidance for making sound and educated decisions to fit the client's special needs ...

TLCCS can help . . .

- Provide a professional assessment of long term care needs of the client.
- Develop appropriate plan of interventions, that include the use of all available public and private resources.
- Provide information to enable the client or family to make an appropriate decision.
- Facilitate the implementation and coordination of services to satisfy the personal care needs of the client.
- Provide monitoring of personal care and services.
- Provide periodic status reports.

TLCCS can . . .

- Act as the client advocate to ensure that their medical and/or social needs are met with the most cost-effective setting within the long term continuum.
- Serve as a liaison between our client and the physician, therapist, and community-based services or facilities to address their care needs.
- Design personalized services to meet the client's wants and needs.
- Coordinate with legal and financial advisors for long-term care planning.

We are problem solvers with skills and expertise in assessing, evaluating, planning and monitoring. Our goal as professional care managers is to ensure that our clients receive the appropriate and cost-effective services designed to address their unique health, psycho-social, and functional needs in the least restrictive environment.
